It Must Be True

Citizen Readers Must Come to That Conclusion.

It is not the telling of a single case in Utah County, but a number of citizens testify. Endorsement by people you know bears the stamp of truth. The following is one of the public statements made in Utah County about Doan's Kidney Pills:

W. W. Robinson, First East and Second North Sts., American Fork, Utah, says: "For months I was a sufferer from constant pain through the small of my back. The least move that brought any strain on my back, made the pain more severe. One day I was in a drug store and asked the druggist to give me something that would relieve the pain. He recommended Doan's Kidney Pills and I got a box. By the time I had used them, I noticed quite an improvement. After I had taken the second box, I was cured. You may continue using the endorsement I have given Doan's Kidney Pills before. I still take them off and on and they give the best of results."
